

General Fact :-

1. *Mobiles/communication/internet/Technology*

Mobile phones and the Internet are two great innovations of science for communication and have been facilitating people for a long time. These two technologies are widely used in almost all the countries of the world and had become a part of our daily lives. We can't deny the usefulness of these technologies as they had made our life easier than it was ever before.

2. *Career/knowledge/Education*

Every human being with an ambition of getting higher knowledge requires attending colleges or universities. The main reason for attending universities or colleges may differ man to man. Someone may aspire to achieve greater knowledge, someone may just want to earn a certificate or someone might attribute it as a step towards career development.

3. *Agriculture/Food*

Compared with people in the past, we concern far less on the preparation of food today, thanks to the development of agriculture and scientific technology. A fair amount of beneficial influence is occurring to us consequently.

4. *Less developed countries*

Perhaps the aid should be diverted to some ***less developed countries*** that have the scarcity of natural resources and where poverty is still widespread.

Many ***developing countries*** still struggle to meet the basic needs of their citizens.

5. *Rich nations*

I believe, ***rich nations*** have a natural obligation to help poor countries so that they can become self-sufficient in the long run. ***The industrialised world*** can provide financial support to such poor nations.

6. **Superpower**

The USA is a great economic **superpower** and the decision made by the country often determine the fate of many poor nations.

7. **Globalisation/consumerism**

Consumerism is a trend developed due to globalisation. It means we want to buy whatever we want, whenever we want and wherever we go. We live in a global village where we can enjoy many international brands and products and thanks to the globalisation for this facility.

While we wholeheartedly welcome the global trade facility, we should be wary of the threat to our **national sovereignty** that might follow due to globalisation.

8. **Environment**

The environment has become a major concern over the last couple of decades, resulting in several debates on who should be responsible for ensuring its sustenance for our future generations.

9. **Language**

Learning a language can be easy but being able to communicate like a native speaker and having a well-grasp of that language are quite hard as it takes more than learning words and grammatical rules of a language.

10. **Art**

There are many cultures and traditions in this world and people believe and respect them from them from various points of views. While considering about a culture in a country, we cannot even forget its museums and art galleries as it plays a great role in preserving the culture. Moreover, they are the best method of displaying the history and values to the youth in a country.
